The Prospective Contractor expressly acknowledges and agrees that state funds may not be expended in connection with the purchase of information technology unless that technology meets the statutory Requirements found in 36 C.F.R. § 1194.21, as it existed on January 1, 2013 (software applications and operating ICSs) and 36 C.F.R. § 1194.22, as it existed on January 1, 2013 (web-based intranet and internet information and applications), in accordance with the State of Arkansas technology policy standards relating to accessibility by persons with visual impairments.

- E. If the information manipulated or presented by the product is inherently visual in nature, so that its meaning cannot be conveyed non-visually, these specifications do not prohibit the purchase or use of an information technology product that does not meet these standards.

## **SECTION 2 – REQUIREMENTS**

- **Do not provide responses to items in this section unless specifically and expressly required.**

### **2.1 INTRODUCTION**

The Arkansas Public Employees Retirement System (APERS) issues this Request for Proposals (RFP) to obtain proposals for a contract for banking services beginning 7/1/18 for APERS, the Arkansas State Police Retirement System (ASPRS) and the Arkansas Judicial Retirement System (AJRS). Required services include: (1) ACH/EFT and manual check depository functions for employer and member contributions; (2) ACH disbursement of monthly retiree annuities and other non-periodic distributions; (3) Online banking services, to include fedwires, EFTs, account inquiries/transactions/reports; (4) Designated account representative(s) who will coordinate other banking staff as required and respond to all APERS account service issues; and (5) Provide availability of detailed account analysis statements.

#### **2.1.1 Required Services**

**Bank Accounts:** The three (3) retirement systems currently use a total of twelve (12) accounts (four for each system). Three (3) of these accounts (one for each system) are for payment of EFT annuitants and non-periodic lump sum payments to members, which are funded on each system's effective date for each payment type. Six (6) accounts (two for each system) are utilized as "sweep" accounts for deposit and payment of federal and state tax withholding. The remaining three (3) accounts (one for each system) are used for daily deposit of member and employer contributions.

#### **ACH Services:**

**Inbound Member/Employer Automated Clearing House (ACH) Deposit Process:** Electronic Funds Transfer (EFT) is the primary method of depositing funds to accounts for each of the retirement systems. A file is originated daily from APERS Member/Employer Self Service portals that will initiate transactions for Employer contributions (CCD transactions) or for Member contributions (PPD transactions). Pre-notes for new accounts are created daily, and sent with inbound payment files via secure file transfer protocol (SFTP). This is a single file (batched) including both pre-note and payments. A minimal number of paper checks are deposited and wire transfer deposits are also utilized by the systems. Funds deposited in these accounts will normally be wired to APERS' custodian bank for investment purposes the day after deposit. Attachments A, B & C provide September 2017 depository information for all three systems. The number of paper check deposits is available in the column immediately to the left of the total deposits column on each system's spreadsheet. Attachment D provides the count of ACH employer deposits for September.

**Outbound Retiree Payroll Automated Clearing House (ACH) Process:** Approximately one (1) week prior to each system's retiree annuity payroll processing date, a pre-note file is generated to verify that all retiree accounts in that system are valid and capable of receiving an ACH transaction. The pre-note file is sent via SFTP. Errors are returned to APERS for resolution. The final retiree file is transmitted via SFTP to the institution three (3) days prior to the retiree annuity payroll effective date. To assist in your response to this RFP, below is the actual schedule summary of the September 2017 retiree payroll and cycle for each system:

System	Recipients	Amount	Dates		
			Pre-Note	File Transmit	Effective (2)
APERS	34,590	\$35,250.516.07	8/21/17 (1)	8/28/17 (1)	9/1/17
ASPRS	636	1,473,086.34	9/6/17	9/12/17	9/15/17
AJRS	145	808,022.49	9/19/17	9/25/17	9/28/17
ADJRS (3)	121	160,777.60	9/20/17	9/26/17	9/29/17

- (1) APERS annuitants are paid in advance, so the dates provided for August are for a September 1 effective date.
- (2) If the effective date falls on a weekend or a holiday, the effective date is the next business day.
- (3) ADJRS is now merged with APERS, but retirees prior to the merge are paid on a different effective date.

**Outbound Non-Periodic Distributions Automated Clearing House (ACH) Process:**

Non-Periodic Distributions include Deferred Retirement Option Plan (DROP), Partial Annuity Withdrawal (PAW), and Termination Refunds. The volume and dollar amounts distributed for these payments vary from month to month. The effective date for these payment types is the 1<sup>st</sup>, and 15<sup>th</sup> of each month (or the next business day, if those dates fall on a weekend or holiday), using the same pre-note and final file transmission protocols as the retiree payroll files (one week prior for pre-note and three business days prior to the effective date for final transmittal).

**2.2 PERFORMANCE STANDARDS**

- A. State law requires that all contracts for services include Performance Standards for measuring the overall quality of services provided that a Contractor **must** meet in order to avoid assessment of damages.
- B. The State may be open to negotiations of Performance Standards prior to contract award, prior to the commencement of services, or at times throughout the contract duration. *Attachment E: Performance Standards* identifies expected deliverables, performance measures, or outcomes; and defines the acceptable standards.
- C. The State has the right to modify, add, or delete Performance Standards throughout the term of the contract, should the State determine it is in its best interest to do so. Any changes or additions to performance standards will be made in good faith following acceptable industry standards, and may include the input of the Contractor so as to establish standards that are reasonably achievable.
- D. All changes made to the Performance Standards will become an official part of the contract.
- E. Performance Standards will continue throughout the aggregate term of the contract.
- F. Failure to meet the minimum Performance Standards as specified will result in the assessment of damages.
- G. In the event a Performance Standard is not met, the Contractor will have the opportunity to defend or respond to the insufficiency. The State has the right to waive damages if it determines there were extenuating factors beyond the control of the Contractor that hindered the performance of services. In these instances, the State has final determination of the performance acceptability.
- H. Should any compensation be owed to the State agency due to the assessment of damages, Contractor **shall** follow the direction of the State agency regarding the required compensation process.

## **SECTION 3 – CRITERIA FOR SELECTION**

- **Do not provide responses to items in this section.**

### **3.1 TECHNICAL PROPOSAL SCORE**

- A. APERS will review each *Technical Proposal Packet* to verify submission Requirements have been met. *Technical Proposals Packets* that do not meet submission *Requirements* will be disqualified and will not be evaluated.
- B. The APERS Evaluation Committee will evaluate and score qualifying Technical Proposals. Evaluation will be based on Prospective Contractor's response to the *Information for Evaluation* section included in the *Technical Proposal Packet*.
1. Members of the Evaluation Committee will individually review and evaluate proposals and complete an Individual Score Worksheet for each proposal. Individual scoring for each Evaluation Criteria will be based on the following Scoring Description.

Quality Rating	Quality of Response	Description	Confidence in Proposed Approach
5	Excellent	When considered in relation to the RFP evaluation factor, the proposal squarely meets the requirement and exhibits outstanding knowledge, creativity, ability or other exceptional characteristics. Extremely good.	Very High
4	Good	When considered in the relation to the RFP evaluation factor, the proposal squarely meets the requirement and is better than merely acceptable.	High
3	Acceptable	When considered in relation to the RFP evaluation factor, the proposal is of acceptable quality.	Moderate
2	Marginal	When considered in relation to the RFP evaluation factor, the proposal's acceptability is doubtful.	Low
1	Poor	When considered in relation to the RFP evaluation factor, the proposal is inferior.	Very Low
0	Unacceptable	When considered in relation to the RFP evaluation factor, the proposal clearly does not meet the requirement, either because it was left blank or because the proposal is unresponsive.	No Confidence

2. After initial individual evaluations are complete, the Evaluation Committee members will meet to discuss their individual ratings. At this consensus scoring meeting, each member will be afforded an opportunity to discuss his or her rating for each evaluation criteria.
3. After committee members have had an opportunity to discuss their individual scores with the committee, the individual committee members will be given the opportunity to change their initial individual scores, if they feel that is appropriate.
4. The final individual scores of the evaluators will be recorded on the Consensus Score Sheets and averaged to determine the group or consensus score for each proposal.

5. Other agencies, consultants, and experts may also examine documents at the discretion of the Agency.

C. The *Information for Evaluation* section has been divided into sub-sections.

1. In each sub-section, items/questions have each been assigned a maximum point value of five (5) points. The total point value for each sub-section is reflected in the table below as the Maximum Raw Score Possible.
2. APERS has assigned Weighted Percentages to each sub-section according to its significance.

Information for Evaluation Sub-Sections	Maximum Raw Points Possible	Sub-Section's Weighted Percentage	* Maximum Weighted Score Possible
E.1 Online Banking Services/Software	40	25%	175
E.2 ACH/EFT Services	35	25%	175
E.3 Customer Service	30	25%	175
E.4. Data Security/Disaster Recovery	20	15%	105
E.5 Institution Stability/Experience	15	10%	70
<b>Total Technical Score</b>	<b>140</b>	<b>100%</b>	<b>700</b>

\*Sub-Section's Percentage Weight x Total Weighted Score = Maximum Weighted Score Possible for the sub-section.

D. The proposal's weighted score for each sub-section will be determined using the following formula:

$$(A/B)*C = D$$

A = Actual Raw Points received for sub-section in evaluation

B = Maximum Raw Points possible for sub-section

C = Maximum Weighted Score possible for sub-section

D = Weighted Score received for sub-section

- E. The proposal's weighted scores for sub-sections will be added to determine the Total Technical Score for the Proposal.
- F. Technical Proposals that do not receive a minimum weighted score/subtotal of 500 may not move forward in the solicitation process. The pricing for proposals which do not move forward will not be scored.

- C. After each demonstration is complete, the Evaluation Committee members will have the opportunity to discuss the demonstration and revise their individual scores on the Post-Demonstration Consensus Score Sheet based on the information in the demonstration.
- D. The final individual scores of the evaluators on the Post-Demonstration Consensus Score Sheets will be averaged to determine the final Technical score for each proposal.

**3.3 COST SCORE**

- A. When pricing is opened for scoring, the maximum amount of cost points will be given to the proposal with the lowest three year grand total as shown in Table One (1) on the Official Bid Price Sheet. (See *Grand Total Score* for maximum points possible for cost score.)
- B. The amount of cost points given to the remaining proposals will be allocated by using the following formula:

$$(A/B)*(C) = D$$

A = Lowest Total Cost

B = Second (third, fourth, etc.) Lowest Total Cost

C = Maximum Points for Lowest Total Cost

D = Total Cost Points Received

**3.4 GRAND TOTAL SCORE**

The Technical Score and Cost Score will be added together to determine the Grand Total Score for the proposal. The Prospective Contractor's proposal with the highest Grand Total Score will be selected as the apparent successful Contractor. (See *Award Process*.)
