

ADEQ
GENERAL AIR PERMIT
FOR
MINOR SOURCE
ANIMAL/HUMAN REMAINS
INCINERATOR FACILITIES

Permit No. : 1976-AGP-000

IS ISSUED TO:

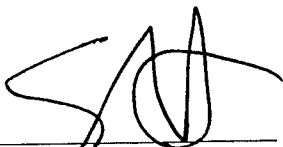

All Minor Source Animal/Human Remains Incinerator Facilities within the State of Arkansas

THIS PERMIT AUTHORIZES THE ABOVE REFERENCED PERMITTEE TO INSTALL, OPERATE, AND MAINTAIN THE EQUIPMENT AND EMISSION UNITS DESCRIBED IN THE NOTICE OF INTENT AND ON THE FOLLOWING PAGES. THIS PERMIT IS VALID BETWEEN:

February 1, 2017 AND January 31, 2022

THE PERMITTEE IS SUBJECT TO ALL LIMITS AND CONDITIONS CONTAINED HEREIN.

Signed:

Stuart Spencer

Associate Director, Office of Air Quality

July 11th, 2016
Date

List of Acronyms and Abbreviations

Ark. Code Ann.	Arkansas Code Annotated
AFIN	ADEQ Facility Identification Number
C.F.R.	Code of Federal Regulations
CO	Carbon Monoxide
HAP	Hazardous Air Pollutant
lb/hr	Pound Per Hour
No.	Number
NO _x	Nitrogen Oxide
PM	Particulate Matter
PM ₁₀	Particulate Matter Smaller Than Ten Microns
SO ₂	Sulfur Dioxide
Tpy	Tons Per Year
UTM	Universal Transverse Mercator
VOC	Volatile Organic Compound

Section I: INTRODUCTION

Summary of Permit Activity

This permit is the third renewal of Air Permit #1976-AGP-000 for certain minor source Animal/Human Remains Incinerator Facilities in Arkansas (referred to as either the “General Permit” or “GP”). With this renewal, the recordkeeping was changed to require the start and stop times of each charge.

Definitions

The following definitions shall serve for the purposes of this permit.

Air Contaminant - any solid, liquid, gas, or vapor, or any combination thereof. The following shall not be considered air contaminants: water vapor, oxygen, carbon dioxide, nitrogen, hydrogen, and inert gases. This definition can be found in Regulation 18 and is regulated by the Arkansas Code Annotated 8-4-303.

Air Pollution - the presence in the outdoor atmosphere of one (1) or more air contaminants in quantities, or characteristics, and or a duration which are materially injurious, or can be reasonably expected to become materially injurious, to human, plant, animal life or property, or which unreasonably interfere with enjoyment of life or use of property throughout the state or throughout the area of the state as shall be affected thereby. This definition can be found in Regulation 18 and is regulated by the Arkansas Code Annotated 8-4-303.

Commercial Medical Waste Incineration Facility - Any facility that accepts medical waste materials for treatment and disposal by incineration from an off-site source and operating the treatment and disposal facility as a business for profit.

Contraband - Material collected by a government agency such as police, customs, agricultural inspection, or a similar agency of only illegal or prohibited goods such as illegal drugs, or agricultural food products that cannot be transported into the country or across state lines to prevent bio-contamination. Contraband does not apply to items either confiscated or incinerated by private, industrial, or commercial entities.

CO - Carbon Monoxide as measured by EPA Reference Method 10.

Facility - for the purposes of this permit a “facility” is defined as all animal/human remains incinerator units located on the same property or on contiguous or adjoining properties which share a common owner or operator.

Hospital waste - Discards generated at a hospital, except unused items returned to the manufacturer. The definition of hospital waste does not include human corpses, remains, and anatomical parts that are intended for interment or cremation.

Insignificant Activity - activities which are deemed by the Department to be insignificant based on size, emission rate, production rate, or activity. A list of activities considered by the Department to be insignificant can be found in Appendices A and B of the *Arkansas Plan of Implementation for Air Pollution Control*.

Medical/Infectious Waste - Any waste generated in the diagnosis, treatment, or immunization of human beings or animals, in research pertaining thereto, or in the production or testing of

biologicals that is listed in paragraphs (1) through (7) of this definition. The definition of medical/infectious waste does not include hazardous waste identified or listed under the regulations in part 261 of this chapter; household waste, as defined in §261.4(b)(1) of this chapter; ash from incineration of medical/infectious waste, once the incineration process has been completed; human corpses, remains, and anatomical parts that are intended for interment; and domestic sewage materials identified in §261.4(a)(1) of this chapter.

- 1) Cultures and stocks of infectious agents and associated biologicals, including: cultures from medical and pathological laboratories; cultures and stocks of infectious agents from research and industrial laboratories; wastes from the production of biologicals; discarded live and attenuated vaccines; and culture dishes and devices used to transfer, inoculate, and mix cultures.
- 2) Human pathological waste, including tissues, organs, and body parts and body fluids that are removed during surgery or autopsy, or other medical procedures, and specimens of body fluids and their containers.
- 3) Human blood and blood products including:
 - a) Liquid waste human blood;
 - b) Products of blood;
 - c) Items saturated and/or dripping with human blood; or
 - d) Items that were saturated and/or dripping with human blood that are now caked with dried human blood; including serum, plasma, and other blood components, and their containers, which were used or intended for use in either patient care, testing and laboratory analysis or the development of pharmaceuticals. Intravenous bags are also include in this category.
- 4) Sharps that have been used in animal or human patient care or treatment or in medical, research, or industrial laboratories, including hypodermic needles, syringes (with or without the attached needle), Pasteur pipettes, scalpel blades, blood vials, needles with attached tubing, and culture dishes (regardless of presence of infectious agents). Also included are other types of broken or unbroken glassware that were in contact with infectious agents, such as used slides and cover slips.
- 5) Animal waste including contaminated animal carcasses, body parts, and bedding of animals that were known to have been exposed to infectious agents during research (including research in veterinary hospitals), production of biologicals or testing of pharmaceuticals.
- 6) Isolation wastes including biological waste and discarded materials contaminated with blood, excretions, exudates, or secretions from humans who are isolated to protect others from certain highly communicable diseases, or isolated animals known to be infected with highly communicable diseases.
- 7) Unused sharps including the following unused, discarded sharps: hypodermic needles, suture needles, syringes, and scalpel blades.

NO_x - all oxides of nitrogen, except nitrous oxide, as measured by EPA Reference Method 7E. (i.e. NO, NO₂, NO₃, etc.)

Animal/Human Remains Incinerator Facilities
Permit #: 1976-AGP-000

Opacity - the degree to which air emissions reduce the transmission of light and obscure the view of an object in the background.

PM - particulate matter, any airborne finely divided solid or liquid material with an aerodynamic diameter equal to or less than 100 micrometers.

PM₁₀ - particulate matter that is smaller than 10 micrometers in diameter.

SO₂ - Sulfur Dioxide, for the purposes of this permit, emissions of sulfur dioxide shall be determined by a mass balance calculation based on the sulfur content of the fuel oil used at the facility.

VOC - Volatile Organic Compounds as measured by EPA Reference Method 25A.

Process Description

Only two-stage, controlled-air incinerators fired by natural gas, propane, or distillate oil are approved under this general permit. In the first stage, waste is fed into the primary combustion chamber, which is operated with less than the stoichiometric amount of air required for combustion. Combustion air enters the primary chamber from beneath the incinerator hearths (below the burning bed of waste.) This air is called primary or under-fire air. In the primary (starved air) chamber, the low air-to-fuel ratio dries and facilitates volatilization of the waste, and most of the residual carbon in the ash burns. At these conditions, combustion gas temperatures are relatively low.

In the second stage, excess air is added to the volatile gases formed in the primary chamber to complete combustion. Secondary combustion temperatures are higher than primary chamber temperatures-typically 1600-2000°F. Additional fuel may be needed to maintain exit gas temperatures above the minimum required temperature.

Regulations

The following table contains the regulations applicable to this permit. The listed federal regulations that are in effect as of the effective date of the General Permit renewal shall be applicable, as well as any subsequent amendments to such regulations, during the pendency of each General Permit renewal.

Regulations
Arkansas Air Pollution Control Code, Regulation 18, effective March 14, 2016
Regulations of the Arkansas Plan of Implementation for Air Pollution Control, Regulation 19, effective March 14, 2016

Animal/Human Remains Incinerator Facilities
Permit #: 1976-AGP-000

Total Allowable Emissions

The following table is a summary of emissions from the facility. This table, in itself, is not an enforceable condition of the permit.

TOTAL ALLOWABLE EMISSIONS		
Pollutant	Emission Rates	
	lb/hr	tpy
PM	N/A	10.0
PM ₁₀	N/A	9.9
SO ₂	N/A	24.9
VOC	N/A	24.9
CO	N/A	39.9
NO _x	N/A	24.9

Animal/Human Remains Incinerator Facilities
Permit #: 1976-AGP-000

Section II: PERMIT HISTORY

Permit # 1976-AGP-000 was first written in 2000.

Permit # 1976-AGP-000 was renewed in 2005.

Permit # 1976-AGP-000 renewal #1 was modified on June 13, 2007 to change the address of Arkansas Department of Environmental Quality. This was an administrative amendment.

Permit # 1976-AGP-000 renewal #2 was issued on February 1, 2012. This was a renewal without any change or modification.

Section III: EMISSION UNIT INFORMATION

Specific Conditions

1. The permittee shall comply with all emission rates and applicable requirements identified in the NOI submitted to and approved by the Department for the facility. [Reg.19.705 and Ark. Code Ann. § 8-4-203 as referenced by Ark. Code Ann. §§ 8-4-304 and 8-4-311]
2. The permittee shall not exceed the emission rates set forth in the following table. The sources covered under this condition include all stationary source air pollution emitting activities at the facility. [Reg.19.501 *et seq.* and Ark. Code Ann. § 8-4-203 as referenced by Ark. Code Ann. §§ 8-4-304 and 8-4-311]

SN	Description	Pollutant	lb/hr	tpy
01	Facility Wide	PM ₁₀	N/A	9.9
		SO ₂		24.9
		VOC		24.9
		CO		39.9
		NO _x		24.9

3. The permittee shall not exceed the criteria pollutant (PM₁₀, SO₂, VOC, CO, NO_x) emission limits established in the Confirmation Letter for this General Permit. The Confirmation Letter is considered part of the General Permit. The permittee must keep a copy of the letter at the facility at all times. [Reg.19.501 *et seq.* and Ark. Code Ann. § 8-4-203 as referenced by Ark. Code Ann. §§ 8-4-304 and 8-4-311]
4. The permittee shall not exceed the emission rates set forth in the following table. The sources covered under this condition include all stationary source air pollution emitting activities at the facility. [Reg.18.801 and Ark. Code Ann. § 8-4-203 as referenced by Ark. Code Ann. §§ 8-4-304 and 8-4-311]

SN	Description	Pollutant	lb/hr	tpy
01	Facility Wide	PM	N/A	10.0

Animal/Human Remains Incinerator Facilities
Permit #: 1976-AGP-000

5. Visible emissions may not exceed the limits specified in the following table of this permit as measured by EPA Reference Method 9. [Ark. Code Ann. § 8-4-203 as referenced by Ark. Code Ann. §§ 8-4-304 and 8-4-311]

SN	Limit	Regulatory Citation
Facility Wide	5%	Reg.18.501 and Ark. Code Ann. § 8-4-203 as referenced by Ark. Code Ann. §§ 8-4-304 and 8-4-311

6. The permittee shall not cause or permit the emission of air contaminants, including odors or water vapor and including an air contaminant whose emission is not otherwise prohibited by Regulation 18, if the emission of the air contaminant constitutes air pollution within the meaning of Ark. Code Ann. § 8-4-303. [Reg.18.801 and Ark. Code Ann. § 8-4-203 as referenced by Ark. Code Ann. §§ 8-4-304 and 8-4-311]
7. The permittee shall not conduct operations in such a manner as to unnecessarily cause air contaminants and other pollutants to become airborne. [Reg.18.901 and Ark. Code Ann. § 8-4-203 as referenced by Ark. Code Ann. §§ 8-4-304 and 8-4-311]
8. The incinerator shall only burn animal and human remains (i.e. corpses, carcasses, organs, etc.) and associated wastes (i.e. cardboard or paper containers, bedding, etc.). [Reg.18.1004 and Ark. Code Ann. § 8-4-203 as referenced by Ark. Code Ann. §§ 8-4-304 and 8-4-311]
9. The incinerator shall not burn any hospital waste, medical/infectious waste, or any animal wastes including contaminated animal carcasses, body parts, and bedding of animals that were exposed to infectious agents during research (including research in veterinary hospitals), production of biologicals or testing of pharmaceuticals. [Reg.18.1004 and Ark. Code Ann. § 8-4-203 as referenced by Ark. Code Ann. §§ 8-4-304 and 8-4-311]
10. The permittee shall record the start time, stop time, date, and weight of each charge burned in each unit using a copy of the record sheets provided (Appendix A) or a diary or computer record that contains the same information. A record shall also be kept of the secondary chamber's start- and mid-cycle temperature each time a unit is in operation. If requested, the data shall be submitted in accordance with General Condition #6. If the facility has more than one incinerator on site, individual incinerator records shall be kept in on separate log sheets. [Reg.18.1004 and Ark. Code Ann. § 8-4-203 as referenced by Ark. Code Ann. §§ 8-4-304 and 8-4-311]

Animal/Human Remains Incinerator Facilities
Permit #: 1976-AGP-000

11. The permittee shall maintain records which demonstrate compliance with the hourly and annual charging rates established in the confirmation letter. These records shall be in the format of Appendix A or a similar format. These records shall be compiled by the fifteenth day of the month following the month to which the records pertain. For the annual charging rates, a twelve month rolling total and each individual month's data shall be kept on-site, and shall be made available to Department personnel upon request. [Reg.18.1004 and Ark. Code Ann. § 8-4-203 as referenced by Ark. Code Ann. §§ 8-4-304 and 8-4-311]
12. The permittee may burn pipeline-quality natural gas or propane as a fuel source at the facility with no limitation on the quantity of either fuel consumed. Any liquid fuel usage shall be subject to Specific Condition #13. [Reg.18.1004 and Ark. Code Ann. § 8-4-203 as referenced by Ark. Code Ann. §§ 8-4-304 and 8-4-311]
13. The permittee shall use no more than 561,000 gallons of liquid fuel during any consecutive 12-month period. No fuels with a sulfur content greater than 0.5% will be allowed for use at this facility. Compliance with this condition shall be demonstrated by compliance with Specific Condition #14. [Reg.18.1004 and Ark. Code Ann. § 8-4-203 as referenced by Ark. Code Ann. §§ 8-4-304 and 8-4-311]
14. The permittee shall maintain monthly records which demonstrate compliance with Specific Condition #13. These records shall be updated by the fifteenth day of the month following the month the month to which the records pertain. These records shall indicate the liquid fuels used during the previous month, the gallons of each fuel used, and the associated sulfur content of each fuel. The sulfur content shall be verified by testing or by vendor's written guarantee for each shipment of fuel received at the facility. A twelve month rolling total and each individual month's data shall be kept on-site, and shall be made available to Department personnel upon request. [Reg.18.1004 and Ark. Code Ann. § 8-4-203 as referenced by Ark. Code Ann. §§ 8-4-304 and 8-4-311]
15. The permittee shall conduct weekly observations of the visible emissions from the facility in order to determine proper operation of the equipment. These readings shall be conducted by someone familiar with the visible emissions from the facility. EPA Method 9 opacity training and certification is not required for this observation. Records of these observations shall be kept on-site, and be made available to Department personnel upon request. These records shall include the date and time of the observation, the name of the person making the observation, and whether the incinerator appears to be operating properly. A sample format for these records is attached in Appendix B. [Reg.18.1003 and Ark. Code Ann. § 8-4-203 as referenced by Ark. Code Ann. §§ 8-4-304 and 8-4-311]

Animal/Human Remains Incinerator Facilities

Permit #: 1976-AGP-000

16. The permittee shall test for particulate matter exiting the pathological incinerator exhaust stack for each existing unit within ninety (90) days of permit issuance. Testing of new units shall be conducted within sixty (60) days of achieving the maximum production rate, but in no event greater than 180 days from the initial start-up of the source. The test must be conducted while the facility is operating at 90% of the permitted throughput or higher. If 90 percent of the permitted throughput cannot be achieved, the permittee shall be limited to 10 percent above the actual tested throughput. The permittee shall conduct the required test in accordance with General Condition #7 of this permit. If this facility has already performed the initial test required or testing has been performed on the same model incinerator under representative operating conditions, then the test need not be repeated. Records of this testing must be maintained on site and be made available to Department personnel upon request. The following EPA Reference Method shall be used as listed in Appendix A of 40 C.F.R. § 60. [Reg.18.1002 and Ark. Code Ann. § 8-4-203 as referenced by Ark. Code Ann. §§ 8-4-304 and 8-4-311]

Pollutant	EPA Test Method	Limit
PM	5	0.1 gr/dscf

17. The permittee shall not emit particulate matter from any incineration unit in a concentration greater than 230 mg/dscm (0.1 gr/dscf) corrected to 12% CO₂. Compliance with this condition shall be demonstrated by compliance with Specific Condition #16. [Reg.18.801 and Ark. Code Ann. § 8-4-203 as referenced by Ark. Code Ann. §§ 8-4-304 and 8-4-311]
18. The pathological incinerator shall be operated only in accordance with the manufacturers operating instructions. A copy of these instructions shall be posted at or near the incinerator. [Reg.18.1104 and Ark. Code Ann. § 8-4-203 as referenced by Ark. Code Ann. §§ 8-4-304 and 8-4-311]
19. Batch incinerator charging doors shall not be opened during an incineration cycle. [Reg.18.1104 and Ark. Code Ann. § 8-4-203 as referenced by Ark. Code Ann. §§ 8-4-304 and 8-4-311]
20. The permittee shall not ignite any pathological incinerator charge unless the secondary chamber has been correctly preheated to 1600⁰F during incineration, no additional waste shall be fed to the unit until repairs are made to assure that the minimum temperature is maintained at all times. [Reg.18.1104 and Ark. Code Ann. § 8-4-203 as referenced by Ark. Code Ann. §§ 8-4-304 and 8-4-311]
21. The facility shall not operate any incinerator without a functioning continuous secondary chamber temperature monitor. [Reg.18.1104 and Ark. Code Ann. § 8-4-203 as referenced by Ark. Code Ann. §§ 8-4-304 and 8-4-311]

Animal/Human Remains Incinerator Facilities
Permit #: 1976-AGP-000

22. This permit shall not be applicable to facilities which have a total rated incineration capacity of greater than 25 tons per day or a total waste combusted greater than 4250 tons per year. The permittee shall maintain documentation of the maximum design capacity of each pathological incineration unit operated at the facility. These records shall be made available to Department personnel upon request. [Reg.19.705 and Ark. Code Ann. § 8-4-203 as referenced by Ark. Code Ann. §§ 8-4-304 and 8-4-311]
23. The facility can request the Department in writing to allow the incineration of up to ten (10) percent of other waste by weight in the incinerator. The Department will respond in writing. The facility will produce the Department's letter of permission upon request. [Reg.18.1004 and Ark. Code Ann. § 8-4-203 as referenced by Ark. Code Ann. §§ 8-4-304 and 8-4-311]
24. The facility will maintain daily records of the amount of non-pathological waste burned in the incinerator. The facility will maintain the records onsite and produce the records upon request. [Reg.18.1004 and Ark. Code Ann. § 8-4-203 as referenced by Ark. Code Ann. §§ 8-4-304 and 8-4-311]
25. The facility will not operate a commercial medical waste incineration facility. A commercial medical waste facility is defined as any facility accepting medical waste materials for treatment and disposal by incineration from an off-site source and operating the treatment and disposal facility as a business for profit. [Ark. Code Ann. §8-6-1305(a)]

Animal/Human Remains Incinerator Facilities
Permit #: 1976-AGP-000

Section IV: INSIGNIFICANT ACTIVITIES

The permittee must submit a list of activities which are considered insignificant in Regulations 18 and 19 (Appendix A). The Department will document these activities in the Confirmation Letter if the insignificant activities are categorized in Group A.

Section V: GENERAL CONDITIONS

1. Any terms or conditions included in this permit that specify and reference Arkansas Pollution Control & Ecology Commission Regulation 18 or the Arkansas Water and Air Pollution Control Act (Ark. Code Ann. § 8-4-101 *et seq.*) as the sole origin of and authority for the terms or conditions are not required under the Clean Air Act or any of its applicable requirements, and are not federally enforceable under the Clean Air Act. Arkansas Pollution Control & Ecology Commission Regulation 18 was adopted pursuant to the Arkansas Water and Air Pollution Control Act (Ark. Code Ann. § 8-4-101 *et seq.*). Any terms or conditions included in this permit that specify and reference Arkansas Pollution Control & Ecology Commission Regulation 18 or the Arkansas Water and Air Pollution Control Act (Ark. Code Ann. § 8-4-101 *et seq.*) as the origin of and authority for the terms or conditions are enforceable under this Arkansas statute.
2. This permit does not relieve the owner or operator of the equipment and/or the facility from compliance with all applicable provisions of the Arkansas Water and Air Pollution Control Act and the regulations promulgated under the Act. [Ark. Code Ann. § 8-4-203 as referenced by Ark. Code Ann. §§ 8-4-304 and 8-4-311]
3. The permittee shall notify the Department in writing within thirty (30) days after commencement of construction, completion of construction, first operation of equipment and/or facility, and first attainment of the equipment and/or facility target production rate. [Reg.19.704 and/or Ark. Code Ann. § 8-4-203 as referenced by Ark. Code Ann. §§ 8-4-304 and 8-4-311]
4. Construction or modification must commence within eighteen (18) months from the date of permit issuance. [Reg.19.410(B) and/or Reg.18.309(B) and Ark. Code Ann. § 8-4-203 as referenced by Ark. Code Ann. §§ 8-4-304 and 8-4-311]
5. The permittee must keep records for five years to enable the Department to determine compliance with the terms of this permit such as hours of operation, throughput, upset conditions, and continuous monitoring data. The Department may use the records, at the discretion of the Department, to determine compliance with the conditions of the permit. [Reg.19.705 and/or Reg.18.1004 and Ark. Code Ann. § 8-4-203 as referenced by Ark. Code Ann. §§ 8-4-304 and 8-4-311]
6. A responsible official, as defined in Regulations 18 and 19, must certify any reports requiring certification under any applicable federal regulation, Regulation 18, or Regulation 19. All reports shall be submitted to the Department at the address below. [Reg.19.705 and/or Reg.18.1004 and Ark. Code Ann. § 8-4-203 as referenced by Ark. Code Ann. §§ 8-4-304 and 8-4-311]

Arkansas Department of Environmental Quality
Air Division
ATTN: Compliance Inspector Supervisor

Animal/Human Remains Incinerator Facilities
Permit #: 1976-AGP-000

5301 Northshore Drive
North Little Rock, AR 72118-5317

7. The permittee shall test any equipment scheduled for testing, unless stated in the Specific Conditions of this permit or by any federally regulated requirements, within the following time frames: (1) newly constructed or modified equipment within sixty (60) days of achieving the maximum production rate, but no later than 180 days after initial start up of the permitted source or (2) existing equipment already operating according to the time frames set forth by the Department. The permittee must notify the Department of the scheduled date of compliance testing at least fifteen (15) business days in advance of such test. The permittee must submit compliance test results to the Department within thirty (30) calendar days after the completion of testing. [Reg.19.702 and/or Reg.18.1002 and Ark. Code Ann. § 8-4-203 as referenced by Ark. Code Ann. §§ 8-4-304 and 8-4-311]
8. The permittee shall provide: [Reg.19.702 and/or Reg.18.1002 and Ark. Code Ann. § 8-4-203 as referenced by Ark. Code Ann. §§ 8-4-304 and 8-4-311]
 - a. Sampling ports adequate for applicable test methods;
 - b. Safe sampling platforms;
 - c. Safe access to sampling platforms; and
 - d. Utilities for sampling and testing equipment
9. The permittee shall operate equipment, control apparatus and emission monitoring equipment within their design limitations. The permittee shall maintain in good condition at all times equipment, control apparatus and emission monitoring equipment. [Reg.19.303 and/or Reg.18.1104 and Ark. Code Ann. § 8-4-203 as referenced by Ark. Code Ann. §§ 8-4-304 and 8-4-311]
10. If the permittee exceeds an emission limit established by this permit, the permittee will be deemed in violation of said permit and will be subject to enforcement action. The Department may forego enforcement action for emissions exceeding any limits established by this permit provided the following requirements are met: [Reg.19.601 and/or Reg.18.1101 and Ark. Code Ann. § 8-4-203 as referenced by Ark. Code Ann. §§ 8-4-304 and 8-4-311]
 - a. The permittee demonstrates to the satisfaction of the Department that the emissions resulted from an equipment malfunction or upset and are not the result of negligence or improper maintenance, and the permittee took all reasonable measures to immediately minimize or eliminate the excess emissions.
 - b. The permittee reports the occurrence or upset or breakdown of equipment (by telephone, facsimile, or overnight delivery) to the Department by the end of the next business day after the occurrence or the discovery of the occurrence.
 - c. The permittee must submit to the Department, within five business days after the occurrence or the discovery of the occurrence, a full, written report of such occurrence, including a statement of all known causes and of the scheduling and nature of the actions to be taken to minimize or eliminate future occurrences,

including, but not limited to, action to reduce the frequency of occurrence of such conditions, to minimize the amount by which said limits are exceeded, and to reduce the length of time for which said limits are exceeded. If the information is included in the initial report, the information need not be submitted again.

11. The permittee shall allow representatives of the Department upon the presentation of credentials: [Ark. Code Ann. § 8-4-203 as referenced by Ark. Code Ann. §§ 8-4-304 and 8-4-311]
 - a. To enter upon the permittee's premises, or other premises under the control of the permittee, where an air pollutant source is located or in which any records are required to be kept under the terms and conditions of this permit;
 - b. To have access to and copy any records required to be kept under the terms and conditions of this permit, or the Act;
 - c. To inspect any monitoring equipment or monitoring method required in this permit;
 - d. To sample any emission of pollutants; and
 - e. To perform an operation and maintenance inspection of the permitted source.
12. The Department issued this permit in reliance upon the statements and presentations made in the NOI. The Department has no responsibility for the adequacy or proper functioning of the equipment or control apparatus. [Ark. Code Ann. § 8-4-203 as referenced by Ark. Code Ann. §§ 8-4-304 and 8-4-311]
13. The Department may revoke or modify this permit when, in the judgment of the Department, such revocation or modification is necessary to comply with the applicable provisions of the Arkansas Water and Air Pollution Control Act and the regulations promulgated the Arkansas Water and Air Pollution Control Act. [Reg.19.410(A) and/or Reg.18.309(A) and Ark. Code Ann. § 8-4-203 as referenced by Ark. Code Ann. §§ 8-4-304 and 8-4-311]
14. This permit may be transferred. An applicant for a transfer must submit a written request for transfer of the permit on a form provided by the Department and submit the disclosure statement required by Arkansas Code Annotated §8-1-106 at least thirty (30) days in advance of the proposed transfer date. The permit will be automatically transferred to the new permittee unless the Department denies the request to transfer within thirty (30) days of the receipt of the disclosure statement. The Department may deny a transfer on the basis of the information revealed in the disclosure statement or other investigation or, deliberate falsification or omission of relevant information. [Reg.19.407(B) and/or Reg.18.307(B) and Ark. Code Ann. § 8-4-203 as referenced by Ark. Code Ann. §§ 8-4-304 and 8-4-311]
15. This permit shall be available for inspection on the premises where the control apparatus is located. [Ark. Code Ann. § 8-4-203 as referenced by Ark. Code Ann. §§ 8-4-304 and 8-4-311]

Animal/Human Remains Incinerator Facilities

Permit #: 1976-AGP-000

16. This permit authorizes only those pollutant emitting activities addressed herein. [Ark. Code Ann. § 8-4-203 as referenced by Ark. Code Ann. §§ 8-4-304 and 8-4-311]
17. This permit supersedes and voids all previously issued air permits for this facility. [Reg. 18 and/or Reg. 19 and Ark. Code Ann. § 8-4-203 as referenced by Ark. Code Ann. §§ 8-4-304 and 8-4-311]
18. The permittee must pay all permit fees in accordance with the procedures established in Regulation 9. [Ark. Code Ann. § 8-1-105(c)]
19. The permittee may request in writing and at least 15 days in advance of the deadline, an extension to any testing, compliance or other dates in this permit. No such extensions are authorized until the permittee receives written Department approval. The Department may grant such a request, at its discretion in the following circumstances:
 - a. Such an extension does not violate a federal requirement;
 - b. The permittee demonstrates the need for the extension; and
 - c. The permittee documents that all reasonable measures have been taken to meet the current deadline and documents reasons it cannot be met.

[Reg.18.314(A) and/or Reg.19.416(A), Ark. Code Ann. § 8-4-203 as referenced by Ark. Code Ann. §§ 8-4-304 and 8-4-311, and 40 C.F.R. § 52 Subpart E]

20. The permittee may request in writing and at least 30 days in advance, temporary emissions and/or testing that would otherwise exceed an emission rate, throughput requirement, or other limit in this permit. No such activities are authorized until the permittee receives written Department approval. Any such emissions shall be included in the facilities total emissions and reported as such. The Department may grant such a request, at its discretion under the following conditions:
 - a. Such a request does not violate a federal requirement;
 - b. Such a request is temporary in nature;
 - c. Such a request will not result in a condition of air pollution;
 - d. The request contains such information necessary for the Department to evaluate the request, including but not limited to, quantification of such emissions and the date/time such emission will occur;
 - e. Such a request will result in increased emissions less than five tons of any individual criteria pollutant, one ton of any single HAP and 2.5 tons of total HAPs; and
 - f. The permittee maintains records of the dates and results of such temporary emissions/testing.

[Reg.18.314(B) and/or Reg.19.416(B), Ark. Code Ann. § 8-4-203 as referenced by Ark. Code Ann. §§ 8-4-304 and 8-4-311, and 40 C.F.R. § 52 Subpart E]

Animal/Human Remains Incinerator Facilities
Permit #: 1976-AGP-000

21. The permittee may request in writing and at least 30 days in advance, an alternative to the specified monitoring in this permit. No such alternatives are authorized until the permittee receives written Department approval. The Department may grant such a request, at its discretion under the following conditions:
 - a. The request does not violate a federal requirement; and
 - b. The request provides an equivalent or greater degree of actual monitoring to the current requirements.

[Reg.18.314(C) and/or Reg.19.416(C), Ark. Code Ann. § 8-4-203 as referenced by Ark. Code Ann. §§ 8-4-304 and 8-4-311, and 40 C.F.R. § 52 Subpart E]
